- ✓ had in old Galaxy phone
thought it had blown over so
when phone broke he just threw it
away
- ✓ he had contacted 50 lawyers about
Whole blown case + was told it
was self incriminating
- ✓ had pics too - sent to Attorney Mr R
[REDACTED] about a year ago
he had a video at that time
but Att. was working on wrongful
termination case + [REDACTED] left
on his own - wasn't fired.
- ✓ ~~sent~~ Att. sent check \$50 bucks
when suing for millions - said he wasn't
a "dumb spic"
- ✓ worked at NYW as night shift
mechanic - 4 years left July 2015
[REDACTED] - Sup. - has been fired
- ✓ x - was an auto mechanic in Jersey
City
- ✓ we worked ~~on~~ on everything on ferries.

- ↓ he fixed everything - they trained him - he picks up on stuff quick
- ↓ he quit bc it almost cost him his marriage; he was angry all the time so he was taking it out on his wife
- ↓ - out of work for 1 mo. then got new job. Serco → mechanic on small/light equipment (serco has contract w/ Simmental) # sup ~~XXXXXX~~ Co.
- ↓ much less stress here - less pay but so worth it
- ↓ @ 8p-430am - NY W. only mechanics work @ night
XXXXXXXXXX →
- ↓ \$27/hr. worked on boats (35) on dock
 ↓ preventative maintenance
- ↓ worked overtime (mandatory) (time + 1/2)
 ↓ Stayed late mostly

✓ weehawken - work dock
(Mechanics Union - ~~Union~~)
Local 407

✓ Golden Sachs - yes
worked on all boats - diff boat
everyday
Sundays were precheck nights
check 4 leaks, oil, coolant

✓ bilge - bottom of boat -
sullage - shit

✓ winter time pipes would freeze
- had a pump but when the pump
broke or it was cold (most winters)
they used a jerry rigged pump
+ pumped sullage right into
river - mostly fuelers did that.

✓ he was spare fueler - so sometimes
he would help out, he gave them a
hard time about it

✓ not every boat @ marina was pumped
out
4 four boats are subcontracted to

* 100 gal per boats - some boats had 2 ⁴⁰⁰
normal pump out (3 boats; cadummarand (200-400g))
NY - those 4 boats were the main ones that they'd pump into Mer

↓ only spec. occas. did other boats get pumped - 4th of July

↓ it would smell so bad

↓ one time when being fitted for mask for painting he asked would it block out the smell of shit

↓ Boss was smart - there was a pad of to do list

↓ 1st time ^(fueler)
boat came in ~~at~~ in an emerg. and a guy showed me how to do it - ^{old pump} gas pump - then they upgraded into electric pump.

↓ kept on floor in shop - out in the open

↓ everyone does it bc they are scared to lose your job - NY W is powerful company

↓ if ~~to~~ pump breaks they supposed to call company to pump it out

- ✓ pump is a diaphragm pump so when it's cold it doesn't work sometimes
- ✓ if they called company it would be fast
- ✓ When he used the correct hose it wouldn't sink
- * Goldman Sachs ⁽²⁾ boats ~~has~~ are always pumped into water bc the piping that ~~is~~ goes to ~~the~~ tank is too thin
- ✓ the diaphragm doesn't have enough power to pump it out so they always pump those 2 boats into rivers
- ✓ 4th July ea boat goes out w/ mechanic they disconnect pipe + let surge go to the bilge then pump it out later
- ✓ he complained to ~~stop~~ steward + ~~he~~ mentioned it once — hecate.

✓ I know bc capt's complained to him, Star didn't like it (day port capt) but ~~they~~ there was nothing he could do

✓ He showed video to Union Rep he raised hell ([redacted]) + ~~it~~ ~~wasn't~~ everything went well for a month then it went right back to doing it.

✓ Nightshift got 25¢ differential

↓ [redacted] said not to do it then [redacted] would leave note to use "electric pump" ~~was~~ what meant pump into river

✓ 4 yrs - money was good but it took a toll on me - stress, marriage

✓ He complained - what if Coast Guard catches me? arrested + fined

✓ 10-workers complained to each other -

12/13/14

✓ only in contact w/ one guy ¹⁹⁸¹ that still works there but he broke his leg

✓ "work log" → notebook w/ instructions
[redacted]

✓ Employee Restroom located on 'navy barge' floating barge

✓ [navy barge - restrooms here
travel lift barge (has travel lift)
dog leg - actual wooden dock ^{→ doesn't know had it got name}

✓ ~~everyone~~^{all} mechanics use - sometimes it would pump into river; he only did it few times (4-5 X's) same electronic pump (2014) - installed bathrooms but that had "port o potties"

✓ [redacted] of any Superer that was there instructed him if that tank gets full it could flood.

Lower all the tools

new, doesn't care about employees
they are work dogs

↓ Oil Spills - ~~no~~ knew nothing
the engine's leak oil

↓ if coast guard gave heads up
they would be ~~put~~ pumped out +
wiped ~~at~~ down

↓ don't have oil/water separators

↓ rule 1500's pump - cheap pump
+ bilge pump - kits on

↓ Fuel Spills - there were 3 spills
from fuelers [REDACTED] up

↓ they fixed the nozzles now
so it won't overflow

↓ they correctly cleaned up
bc they don't want fire dept
involved

↓ 10 - it would come in + contain it
+ clean up

✓ Clean billage w/o suit on
✓ Cheap gloves to fix piping

proper way
pump out
press. wash
disinfect
+ then w/ suit fix

✓ he complained + they gave them
a painter's jump suit to sheet
him up

✓ thought this was over +
threw broken phone away

✓ doesn't think anyone will talk
[if you could find any of the
fuelers that used to wk there
- [REDACTED]
- Jewish guy ?

✓ ^{Arthur} Empiritor - owner → mobster
of Co. used to be
